

Using your tablet (phone) for taking the in-class exam

Dr. Darrel Smith

September 17, 2017

Some people have encountered problems when trying to access the electronic quiz in Mastering Physics while using their tablet or phone. I had similar problems on my iPad until I made the following changes:

1. Go into "Settings" and go into "Safari" and disengage "Block Pop Ups."
2. In the same area, go to the "Block Cookies" tab and choose "Always Allow."
3. Close your settings.
4. Turn "off" your iOS device, and turn it back on to make sure the settings "take hold."
5. Now, try accessing the Mastering Physics "Practice Quiz 1" and see if you're able to access the Quiz.
